

ISED Welcomes Research Collaborations

While its Research Programme includes both Mandate Research and Contract Studies. Mandate research includes all such studies that belong to the core mandate areas of the Institute: Enterprise & entrepreneurship. Apart from this, the Institute also participates in the research programme of like-minded institutions and programmes, wherein, contract studies and evaluations are undertaken on mutual contract and agreement.

ISED seeks collaborative ideas from like-minded research Institutes and universities from within the country and abroad. This may include, both short-term studies and large field studies in any part of India. Field based studies of the Institute in the past include, pan-India operations, as also in other countries such as, U.K., Netherlands, Bangladesh, Nepal, and Indonesia. ISED has been accredited by the Ministry of Statistics & Program Implementation, Government of India, for large field studies at the national level (Source: Analytical Report on Survey Capabilities of the Private Sector), as an Institute of higher learning with National level survey capabilities (National Score= 44.93; National Rank: 25).
