

### ISED Internship Programme-2025 (Quarter 3)

Quarter3, 2025(July-September) of the ISED International Internship Programme in Sustainable Development (IIPSD), opens on July 01, 2025. Specially designed and focused on 'Sustainable Development' in the Entrepreneurship & Economic Governance setting, the Programme has a competitive selection process.

Other Internship opportunities also may be considered on merit. Other categories of Internship opportunities available are, Credit internship, Unpaid Internship, Part-time Internship, Remote Internship, and Paid Internship. ISED is keen that, its rich knowledge resources, emerging from the practice of 'sustainable development', should percolate in the community. By offering an Internship opportunity, the Institute performs two important roles: 1) an outreach of its programme and activities to the wider community; and 2) as a social responsibility initiative. The Institute broadly

follows the guidelines of the United Nations Internships and that of the Internship Scheme of the Government of India (2024). The PM Internship Scheme (PMIS), which came through the Union Budget 2024-25, aims to provide young individuals with practical exposure to professional work environments.

The Institute also invites donors to sponsor Internships, under a Memorial Fund. A memorial fund is a charitable fund created in memory of a deceased individual to honour his/her life and legacy.

Enquiries from donors, sponsoring educational institutions, and individual candidates may be addressed to the Co ordinator, ISED Small Enterprise Observatory (email: [seo@isedonline.org](mailto:seo@isedonline.org))
